Precision Workholding Technology
DYNOGRIP™ TOP PALLETS

MATE™ 52 TOP PALLETS

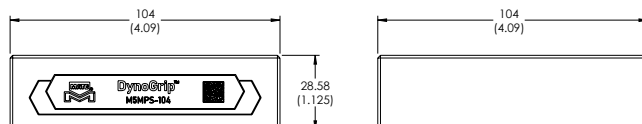

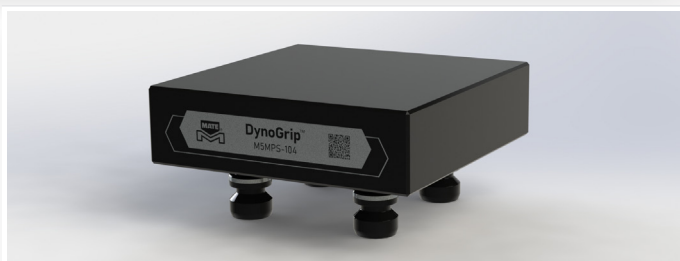

Mate DynoGrip™ top pallets increase the versatility of your zero-point workholding set-up. They accommodate parts that do not easily fit in Mate's self-centering vises or ER collet chucks. Mate DynoGrip top pallets are designed as blanks so they can be modified and configured with conventional clamping devices to meet your specific application needs. Fully compatible with Mate 52- and 96-series DynoLock™ bases, Mate DynoGrip top pallets deliver modular quick-change top tooling with best-in-class repeatability.

Product highlights:

- 4140 steel construction with black oxide finish
- Compatible with DynoLock™ 52- and 96-series bases (pull studs included)
- Optional removable handle for improved ergonomics during loading and unloading
- Made in USA

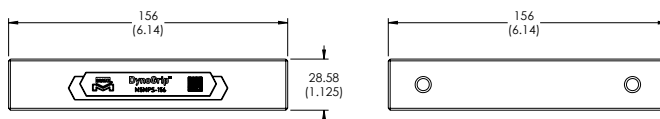

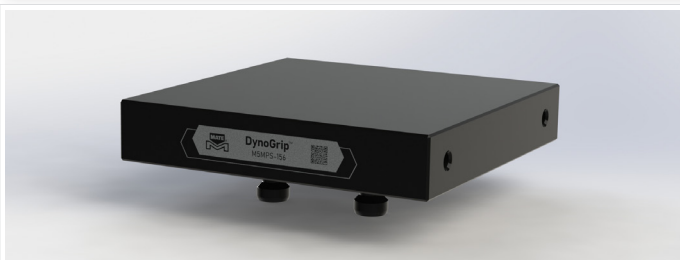

M5MPS-104

	Information	Metric	Imperial
Series	52		
Length		104mm	4.09"
Width		104mm	4.09"
Height		29mm	1.13"
Weight		2.5kg	5.4lbs
Material	4140 Steel		

M5MPS-156

	Information	Metric	Imperial
Series	52		
Length		156mm	6.14"
Width		156mm	6.14"
Height		29mm	1.13"
Weight		5.4kg	11.9lbs
Material	4140 Steel		

MOMAC-HA-117*

What's included with MOMAC-HA-117:

Description	Part Number	Quantity
Handle	MATE02997	2
Socket Head Cap Screw	SHC12167	4

*Not compatible with M5MPS-104
